

Safer sex - condoms

Learning objective

Students use the Laugh and learn video to initiate discussions around safer sex. They develop an understanding of the term 'safer sex' and the importance of using condoms to prevent STIs and pregnancies by brainstorming the reasons why people choose or choose not to use condoms and listing life skills and strategies needed for condom negotiation and use.

Take Home Messages

'Safer sex' means using a condom to prevent STIs and unintended pregnancies.

Being able communicate with your partner about using condoms is part of a respectful sexual relationship.

To encourage better (and more) use of condoms we need:

- knowledge about how and why to use condoms
- positive attitudes and values towards using condoms
- life skills, including being able to communicate with a partner about having safer sex.

Materials

- [Laugh and learn video - condoms](#) (2min 23sec)
- Attitudes and values_teacher answer sheet (1 for teacher)
- Life skills_student activity sheet (1 per pair) - electronic or hard copy
- Life skills_teacher answer sheet (1 for teacher)

Before You Get Started

- [Protective interrupting](#) - Teachers need to know and understand how to use this technique to prevent students from potentially disclosing sensitive information or abuse in front of other students.
- [Dealing with disclosures](#) - Teachers must be aware of the school and legal procedures if a student discloses personal issues, particularly disclosures of sexual abuse.
- [Exploring my own values](#) - Consider your own thoughts, feelings, attitudes and values on this topic and be aware of how they may influence the way you present this activity.
- [Question box](#) - Have a question box available in every lesson to allow students the opportunity to ask questions that may be too embarrassing or unsafe for them to ask openly in class. See [Setting up the question box](#) and [Types of questions](#) for further information. For ways to answer some of the curly questions, see [Student FAQs](#).
- Preview the [Laugh and learn - condoms](#) (2min 23sec) video to determine suitability for your students.
- Before facilitating this lesson ensure you are familiar with the laws about sexual consent in WA. For essential information about consent, safer sex and taking selfies go to:
 - [Youth Law Australia - Consent](#) (external site)
 - [Get the Facts - Sex and the law](#)

Learning Activities

Group agreement

Teaching tip: A group agreement must be established before any RSE program begins to ensure a safe learning environment. Read [Essential information: Establishing a group agreement](#) for tips on how to create one and what to include.

1. Revise the class [group agreement](#).
2. Remind students that throughout the lesson they can write any questions down and add them to the question box at the end of the lesson (if they do not wish to ask them during the lesson). See [Essential information - Setting up a question box](#).

??Trigger warning

3. Say:

"This lesson covers topics that can sometimes be difficult for people. If you feel uncomfortable, you may like to take a break from the room.

Before we start, let's check that everyone knows where to go for help if you want to check anything that this lesson raises for you."

4. Ask students:

? Who are some trusted adults you can talk to?

(Possible answers: parents, grandparents, teacher, older siblings, doctor, other family members, etc)

Teaching tip: It is important not to tell students who their trusted adults are or should be. You can offer a list of suggestions of who they might be. For some students, some of the people you suggest, may not be people that are safe for them to talk to. Students should not be made to share their list of trusted adults publicly unless they wish to do so.

? Who are some people at this school that you can talk to?

(Possible answers: class teacher, other teachers, school psychologist, community health nurse, youth workers, etc)

? What services and online support is available?

(Possible answers: [Sexual Assault Resource Centre \(SARC\)](#), [Kids helpline](#), [Headspace](#), GPs, [Sexual Health Quarters](#), [Beyond Blue](#), [Lifeline](#), [1800 Respect](#))

Introduction

3. Using the [One minute challenge](#) teaching strategy students complete this sentence, "To me, safe sex is.....".
4. Share in small groups.
5. Ask for volunteers to share with the class. (Some of the answers may be humorous and that's ok!)
6. Say:

"What we will be covering in this session may not be new to many of you. But I am sure that you will all find at least one new and different piece of information – if not more! Everyone needs reminders at different times about keeping ourselves and others safer."

7. Explain:

"The terms 'safe' and 'safer' are often used interchangeably. In this video the term 'safe' is used however the more accurate term is 'safer' as no sexual activity is 100% safe. Safer sex means protecting the health of both ourselves and others. This means preventing sexually transmitted infections (STIs) and unintended pregnancy."

For more detailed explanation see [What is safer sex?](#) (external link) and [Get the Facts - Safer sex](#).

Laugh and learn video - condoms

8. Watch [Laugh and learn video - condoms](#) (2min 23sec).

9. Ask the following questions:

? Why do you think humour is used in this video?

(e.g. negotiating condom use can be difficult and embarrassing; lots of people have negative thoughts and myths about condoms; sex can be embarrassing and people use humour to cope with their embarrassment and/or lack of knowledge)

? Does it help get information across? How?

? What is the main message/information you got from this video?

? Seriously, what is 'safer sex'?

(Using a condom (male or female condom) to reduce the risk of STIs and pregnancy.)

Remember, safer sex really starts right at the beginning – talking to your partner and being sure that you both want to have sex and are ready.

Survey stastics

10. Say:

"Some of you may have already had some sessions in the past about condoms. Today we are going to revise that and also look at some other issues associated with condom use and safer sex."

11. Ask:

"Who thinks that 100% of young people know that using condoms reduces the risk of unplanned pregnancies and STIs?

? In 2018, what percentage of Western Australian Year 10 – 12 students do you think say they always use condoms? Take some answers.

(37%)

? And what % said they often used them? Take some answers.

(22%)

? If most people know that it is important to use condoms, why do you think that 63% of those students surveyed said they didn't always use them?

(e.g. Too embarrassed; condom not readily available when required; partner didn't want to use; didn't think about it; didn't think they would have sex at that moment; not prepared; I don't like them; my

partner doesn't like them; I trust my partner; we've both been tested; I know my partner's sexual history; it's not my responsibility; we both haven't had any sexual activity with anyone else before.)"

(Reference: [WA Survey of Secondary Students and Sexual Health](#))

Say:

"Did you know: Some STIs can be passed on through oral sex. External condoms (sometimes referred to as male condoms) can reduce the risk of STI transmission during oral sex. [Dental dams](#) (external link) can also be used. This is a piece of latex (or polyurethane) that can be used between the mouth and vagina or mouth and anus during oral sex.

[Internal condoms](#) (sometimes referred to as female condoms) are another contraceptive that prevents both STIs and unintended pregnancy."

Attitudes and values

12. Say:

"It's important to understand that knowledge alone isn't always enough for people to make the safest or healthiest choices. They need to believe that the behaviour is really important and they need to value the outcome – whether that is not getting an STI or having an unplanned pregnancy.

And then people need specific skills to be able to put into practice their knowledge and attitudes and values.

So, Knowledge + Attitudes/Values + Skills (might) = Healthier/safer behaviour."

13. Say:

"Let's think about using a condom.

We already know that you have lots of knowledge about how to use condoms and why they should be used.

Let's look at attitudes and values.

Working in pairs make a list of attitudes and values, beliefs, feelings and opinions that might underlie why some people (especially young people) may choose to use or not use condoms."

Show students the headings and provide an example.

People value _____ so might use condoms	People value _____ so might NOT use condoms
not getting an STI	family (e.g. they may want to have a baby)

Teaching tip: It is important to consider diversity of sexual identity and sexual behaviours when discussing sexual health topics like condom use. Some people may have sexual experiences with people of the same sex and not identify as lesbian, gay or bisexual.

14. Discuss answers as a whole group. See [Values and attitudes teacher answer sheet](#) for possible answers.

Point out that different people have different values and individuals have values that may change depending on their stage of life.

Teaching tip: It is important to unpack responses around valuing reputation and relationship as reasons to choose not use condoms. Lead discussion about the importance of respectful relationships and gender expectations (refer to background note [Respectful Relationships](#)). Example questions include:

- Are the expectations around buying condoms the same for everyone? (Typically it is an expectation for men and less expected for women)
- Are the potential reputation impacts of carrying condoms the same for everyone? (Typically the seen as a positive for men ('stud') and negative for women ('slut') in line with gendered expectations about sex and relationships)
- What are important features of respectful relationships? Are these present when a partner is feeling pressured to not use condoms? (Feeling safe, trust, honesty, being valued and cared for, being able to disagree and say no without fear of being unsafe or hurt. No, pressure to not use condoms is not respectful)

Life skills

15. Say:

“Just because people have knowledge about the correct way to use a condom, and they think that it is important to use condoms, people still need a variety of skills in order to use condoms properly, consistently and respectfully.”

16. Display [Life skills Student activity sheet](#) or provide as a handout for students to complete (1 per pair).
17. Working in pairs, ask students to suggest examples of the life skills being practised when negotiating condom use and using condoms. See [Life skills - answers sheet](#) for possible answers.
18. Ask for volunteers to give their examples.

3-2-1 Reflection

19. Ask for volunteers to respond to the question:

? What skill is the most important to you and why?

20. Remind students that [Get the Facts](#) has a completely confidential ‘[ask a question](#)’ service that they may wish to use. All questions are answered by a qualified health professional within a week.

Health Promoting Schools

Background teacher note: [Health promoting schools framework](#).

Partnerships with parents

- [Talk soon. Talk often: a guide for parents talking to their kids about sex](#) is a free resource that can be bulk ordered by schools. Send a copy home to parents prior to starting your RSE program. The booklet offers age and stage appropriate information so that parents can reinforce the topics covered in class. ([How to order hardcopies](#).)
- Run a parent workshop prior to delivering RSE lessons so that parents can see the resources used, ask questions and find out how to support the school program by continuing conversations at home.
- Add the [Get the Facts](#) and [SECCA app](#) links to your website/e-news for parents.

Partnerships with school staff

- Invite the school health professionals and pastoral care staff (school nurse, school psychologist, chaplain, boarding house master, etc) to a class or an assembly to introduce them to the students and let them know what their roles are and how they can help the students. For example:
 - If you have concerns about relationships, you can go to...
 - If you have more questions about sexual health, you can go to...

Keeping safe in sexual situations

Learning objective

Students explore legal, physical, social and emotional safety, and respectful relationships using a placemat strategy and the Laugh and learn video as a stimulus.

Explores the importance of communicating with a partner about readiness for sex, consent and

Take Home Messages

Communicating with your partner about readiness for sex, consent, STI prevention and contraception before sexual activity is essential.

Keeping yourself and your partner safe in sexual situations means thinking about all aspects of safety and wellbeing including physical, emotional, social and legal.

It is important for partners to communicate about their expectations before sexual activity.

Materials

- Laugh and learn video - keeping safe (2min 8sec)
- Student activity sheet: Placemat activity sheet_keeping safe with sexual activity (1 per group of 4 students enlarged to A3 size)
- Teacher resource: Placemat activity_answer sheet (1 for teacher)
- Optional: Take home activity_reliable RSE websites

Before You Get Started

- It is beneficial to complete the following lessons prior to this lesson, or ensure students have the appropriate knowledge:
 - [Sexual consent and the law](#)
 - [Safer sex - condoms](#)
 - [Sexting: To send or not to send](#)
- [Protective interrupting](#) - Teachers need to know and understand how to use this technique to prevent students from potentially disclosing sensitive information or abuse in front of other students.
- [Dealing with disclosures](#) - Teachers must be aware of the school and legal procedures if a student discloses personal issues, particularly disclosures of sexual abuse.
- [Exploring my own values](#) - Consider your own thoughts, feelings, attitudes and values on this topic and be aware of how they may influence the way you present this activity. Be aware of your own self-care and support networks
- [Question box](#) - Have a question box available in every lesson to allow students the opportunity to ask questions that may be too embarrassing or unsafe for them to ask openly in class. See [Setting up the question box](#) and [Types of questions](#) for further information. For ways to answer some of the curly questions, see [Student FAQs](#).
- Preview [Laugh and learn - keeping safe](#) (2min 8sec)
- Background teacher notes/guides provide content knowledge for teachers prior to lesson delivery: [Respectful relationships](#); [Safer sex and contraception](#); [Sex and alcohol and other drugs](#); [Sex and the law](#); [Discrimination](#)
- Visit these external sites for further essential information on consent, safer sex and taking selfies:
 - [Sex and the Law | Get the Facts](#) (external link)
 - [Sex & Dating | Legal Support in Western Australia | Youth Law Australia](#) (external link)
 - [King Edward Memorial Hospital - Sexual Assault Resource Centre \(SARC\)](#) (external link)

Learning Activities

Group agreement

Teaching tip: A group agreement must be established before any Relationships and Sexuality Education (RSE) program begins to ensure a safe learning environment. Read: [Essential information: Establishing a group agreement](#) for tips on how to create one and what to include.

1. Revise the class [group agreement](#).
2. Remind students that throughout the lesson they can write any questions down and add them to the question box at the end of the lesson (if they do not wish to ask them during the lesson). See [Essential information - Setting up a question box](#).

??Trigger warning

3. Say:

"This lesson covers topics that can sometimes be difficult for people. If you feel uncomfortable, you may like to take a break from the room."

Before we start, let's check that everyone knows where to go for help if you want to check anything that this lesson raises for you."

Teaching Tip: You may wish to offer students the option of asking to use the toilet or have a non-verbal signal that students can use so that they can take a break without having to identify themselves to the class.

4. Ask students:

? Who are some trusted adults you can talk to?

(Possible answers: parents, grandparents, teacher, older siblings, doctor, other family members, etc)

Teaching tip: It is important not to tell students who their trusted adults are or should be. You can offer a list of suggestions of who they might be. For some students, some of the people you suggest, may not be people that are safe for them to talk to. Students should not be made to share their list of trusted adults publicly unless they wish to do so.

? Who are some people at this school that you can talk to?

(Possible answers: class teacher, other teachers, school psychologist, community health nurse, youth workers, etc)

? What services and online support is available?

(Possible answers: [Sexual Assault Resource Centre \(SARC\)](#), [Kidshelpline](#), [Headspace](#), GPs, [Sexual Health Quarters](#), [Beyond Blue](#), [Lifeline](#), [1800 Respect](#))

Laugh and learn video - safer sex

5. Say:

"In this video there are some words and phrases that need some thinking about and discussing before we get to see the video."

6. Divide the class into groups to discuss the following questions. Ask for responses from each group.

? What do you think 'ramification' means? Use a dictionary if you don't know.

(Consequence, result, aftermath, outcome, effect.)

? Thinking about the topic of 'staying safe in a sexual situation' - what do you think would be covered in a 'proper talk'?

(e.g., Communicating about individual wants; consent; STI and pregnancy prevention.)

? What do you understand 'safe sex' measures to be?

(Using a condom to prevent STIs and/or pregnancy and using a contraceptive method to prevent pregnancy.)

7. Explain:

"The term 'safe sex' and 'safer sex' are often used interchangeably. In this video the term 'safe sex' is used, however, the more accurate term is 'safer sex' as no sexual activity is 100% safe."

For a more detailed explanation see [Safer sex](#) (external link) and [What is safer sex?](#) (external link).

9. Watch [Laugh and learn - keeping safe](#) (2min 8sec)

10. Ask:

? What do you think of the use of humour in this video?

? Does it help get information across? How?

? What is the message/information you got from this video?

(e.g. it is important to talk about safer sex beforehand; both partners need to be ready; the age of consent in WA is 16; partners should be aware of what each other want; consent is vital)

11. Say:

"While humour is useful and we can laugh at some aspects, there is a serious side to keeping safe that we need to look at. We're going to look at some of the important considerations around, and possible 'ramifications' (consequences) of, sexual activity."

Ask:

? There were a number of positive key words you may have seen or heard in the video. What were they? (Give clues by writing these words with some letters missing.)

- communicate/communication/talk
- consent
- comfort/comfortable
- conversation
- wants/expectations

? So why is it important to talk about safe sex beforehand?

(e.g., ready; comfortable; can be difficult because it is out of comfort zone; both need to be aware of each others expectations.)

Placemat: Keeping safe with sexual activity

12. Say:

"There are several aspects to keeping safe in sexual situations that need to be considered.

There are different areas that need to be considered when people are thinking about keeping themselves and their partners safe in sexual situations. As we have discussed, safety and wellbeing related to sexual activity is about more than just STI and pregnancy prevention. It is important to think about the issues and and impacts related to all areas:

- physical (including sexual health)
- emotional
- social

- respectful relationship with partner
- the law

Many of the issues and consequences considered in each area overlap and link with other areas.

13. As a whole group, revise the legal aspects of consent in WA (legal age of consent in WA is 16; consent must be mutual, freely given, informed, certain, coherent, clear and ongoing; consent can be withdrawn at any time).

Teaching tip: For essential information about consent, safer sex and taking selfies go to the [Youth Law Australia](#) website (external site) and [Get the Facts - Sex and the law](#) (external site).

14. Teaching strategy: [Placemat activity](#) In groups of 4 students complete [Student activity sheet: Keeping safe with sexual activity](#). Have each group discuss and record possible issues and ramifications associated with different aspects of keeping safe in sexual situations:

1. physical (including sexual health)
2. emotional
3. social
4. respectful relationship with partner
5. the law

15. Have groups share ideas with the whole class. See [Teacher resource: Placemat activity answer sheet](#) for possible answers.
16. Remind students that the Sexual Assault Resource Centre (SARC) is a free service available for people who have experienced sexual assault. Display the [SARC website](#) and crisis line phone numbers (08) 6458 1828 or free call 1800 199 888. Posters can be put up in class and other places around the school.

3-2-1 Reflection

17. Ask students to write one new thing they have learnt from this lesson.
18. Ask for volunteers to share what they wrote.
19. Remind students that Get the Facts has a completely confidential '[ask a question](#)' service that they may wish to use. All questions are answered by a qualified health professional with a week.

3-2-1 Reflection

Optional: Take home activity

Provide students with the [Take home activity: Reliable RSE websites](#) (electronic copy if possible). Remind them that it is best to use credible Western Australian and Australian websites to answer health questions rather than doing an internet search.

Health Promoting Schools

Background teacher note: [Health promoting schools framework](#).

Partnerships with parents

- [Talk soon. Talk often: a guide for parents talking to their kids about sex](#) is a free resource that can be bulk ordered by schools. Send a copy home to parents prior to starting your RSE program. The booklet offers age and stage appropriate information so that parents can reinforce the topics covered in class. ([How to order hardcopies.](#))
- Run a parent workshop prior to delivering RSE lessons so that parents can see the resources used, ask questions and find out how to support the school program by continuing conversations at home.
- Add the [Get the Facts](#) and [SECCA app](#) links to your website/e-news for parents.

Partnerships with school staff

- Invite the school health professionals and pastoral care staff (school nurse, school psychologist, chaplain, boarding house master, etc) to a class or an assembly to introduce them to the students and let them know what their roles are and how they can help the students. For example:
 - If you have concerns about relationships, you can go to...
 - If you have more questions about sexual health, you can go to...

RELATE: Respectful relationships program - Stage 3

Learning objective

RESPECTFUL RELATIONSHIPS EDUCATION

STAGE 3

A one term respectful relationship program consisting of 8 scaffolded sessions covering gender stereotypes and expectations, respectful relationship qualities, non-consensual image sharing, sexual assault, consent, disrespectful and unethical behaviours, decision making frameworks, opinion and values in romantic relationships.

Each stage of *RELATE* can be delivered in isolation but is best delivered sequentially.

Stage 3 is suggested for Year 9 or 10 but may be suitable for lower or higher year groups depending on student demographics.

Take Home Messages

-

Curriculum Links

RELATE has been designed to improve students' knowledge, attitudes, skills and behaviours to recognise and engage in respectful relationships. This includes increased:

- awareness of, and respect for, diversity
- understanding of the impact of gender expectations and social norms on relationships and sexual health
- understanding of, and skills for, ethical behaviour in the context of relationships
- skills to establish and maintain positive, equitable and respectful relationships
- capacity to identify and address disrespectful behaviour
- digital literacy skills
- critical analysis skills
- knowledge of, and ability to access, a range of support people and services.

It provides opportunities for young people to explore attitudes and peer, gender, social and cultural influences that impact on behaviour in relationships; identify perceived and actual peer norms and rectify incorrect perceptions; examine their expectations and the value they place on different behaviours within relationships as well as develop skills and confidence to carry out desired behaviours (self-efficacy).

Gender analysis is core to the approach of the RELATE program. Gender inequality and gendered expectations in relationships are understood as key issues underpinning the occurrence of relationship violence and poor sexual health outcomes. Gender is explored by considering individuals within the context of relationships, communities and society. This is extended using a human rights framework, that considers not only gender but includes race, ethnicity, class, sexual orientation, disability, religion and culture.

,

Curriculum Links

Key understandings

Session 1: Setting the scene - Establishing group agreement

Purpose: To provide students with an opportunity to explore and discuss factors that make for a safe and supportive learning environment for all.

I already have some knowledge about respectful relationships, gender, communicating and sexting but I can always learn more.

People have different values and attitudes and these come from my experiences, my family, my peers, culture and community.

Session 2: What do you think?

Purpose: To recognise stereotypes as expressed and demonstrated in some romantic relationships

To identify myths and misconceptions about gender Stereotypes.

To apply knowledge of consent to scenarios.

Consent is a really important consideration in a respectful relationship. In order to give consent for sex everyone must be Ready, willing and able.

Session 3: Different points of view

Purpose: To identify different viewpoints and perspectives of the same event.

To understand the need for clear, assertive and respectful communication.

To identify clear, assertive and respectful communication.

I feel confident to communicate my consent clearly. I understand the importance of checking that I have consent from my partner.

Session 4: Trusted moments

Purpose: To identify disrespectful and unethical behaviours in a variety of relationships.

To view and discuss the DVD Trusted moments.

Session 5: What really happened?

Purpose: To apply a framework for considering the safety and respect of people in a risky situation.

There are 4 questions that I need to think about when making decisions to keep myself safe.

Session 6: What do I know?

Purpose: To review and apply concepts of: gender and identity; respectful relationships; effective communication.

To understand that different decisions can be made to change the outcome of situation.

To be aware of the Sexual Assault Research Centre (SARC) and its services.

There are always key moments when different decisions can be made that can result in a safer outcome. If something goes wrong for me or my friend I know I can get help from SARC as well as other places.

Session 7: Relationships - a rollercoaster ride

Purpose: To identify some of the positives and negatives of romantic relationships.

To consider how to manage conflict in romantic relationships in a respectful manner.

Having romantic/intimate/sexual relationships is a normal part of growing older. Like any relationship, they involve risk taking. There are decisions and behaviours people can make to feel safe, respected and respectful.

Session 8: So what do you think?

Purpose: To identify a range of opinions and values about romantic relationships.

To demonstrate respect for diversity.

It is important that people in romantic relationships are respectful of themselves and each other.

Materials

There are no listed materials.

Learning Activities

Sample session pages and activity sheets:

See [RELATE: Stage 3 full program \(16MB\)](#) for the entire package of lesson plans including lists of materials required for each session, posters, activity sheets and teaching notes.

Sexual Health Quarters (SHQ) conducted the original development of RELATE (1st and 2nd edition). SHQ has had no involvement with any subsequent updates or editions of RELATE.

Porn: The who, what, where, when, how, why and why not

Learning objective

Students use the graffiti wall strategy and the Laugh and learn to develop an understanding of what porn is, how people may come across porn, why people access porn and its possible harms. Strategies for dealing with unwanted exposure to porn are also discussed.

Take Home Messages

1. Remind students of the take home messages: Porn is NOT reality; it's a performance (often with paid actors) - it does not show real life sex and relationships. Porn can create unrealistic expectations of self and others:
 1. how they look
 2. what they do
 3. how they act
 4. how they treat each other.

Porn is not a reliable or accurate sex educator. Pornography often does not consider or demonstrate consent, respect and safety - all essential in a respectful relationship. There are other better and more reliable ways to find out about real respectful and intimate relationships.

2. Tell students that there will be links to information for parents on the school website/newsletter so they can be more informed too.
3. [Question box](#): Give out some small scrap pieces of paper and allow students time to write any questions they have for the question box. To ensure confidentiality, ask all students to write something on the scrap paper at the same time (even if they just draw a smiley face or scribble) and place it in the question box.
4. Remind students that [Get the Facts](#) has a completely confidential '[Ask a question](#)' service that they may wish to use. All questions are answered by a qualified health professional within a week.

Curriculum Links

Year 9

- Factors that shape identities and adolescent health behaviours, such as the impact of: cultural beliefs and practices; family; societal norms; stereotypes and expectations; the media; body image ([ACPPS089](#)).
- Skills to deal with challenging or unsafe situations: refusal skills, initiating contingency plans; expressing thoughts, opinions, beliefs; acting assertively ([ACPPS089](#)).
- Impact of external influences on the ability of adolescents to make healthy and safe choices relating to: sexuality ([ACPPS092](#)).

Year 10

- The impact on societal and cultural influences on personal identity and health behaviour, such as: how diversity and gender are represented in the media ([ACPPS089](#)).
- Analysis of images and messages in the media related to: alcohol and other drugs; body image; relationships ([ACPPS092](#)).
- Critical health literacy skills and strategies: evaluating health services in the community; examining policies and processes for ensuring safer behaviours ([ACPPS095](#)).

Curriculum Links

Key understandings

Porn is NOT reality; it's a performance (often with paid actors) - it does not show real life sex and relationships.

Porn can create unrealistic expectations of self and others:

- how they look
- what they do
- how they act
- how they treat each other.

Porn is not a reliable or accurate sex educator.

Pornography often does not consider or demonstrate consent, respect and safety - all essential in a respectful relationship.

There are other better and more reliable ways to find out about real respectful and intimate relationships.

Materials

- Laugh and learn video - Porn (4min 40sec)
- Graffiti wall display cars - who, what, where, when, how, why, why not (colour or B&w) - 1 set
- Sticky notes or small scraps of paper (Approximately 6-10 pieces per student)
- Access to website - eSafety Commissioner (link in instructions below)

Before You Get Started

- Preview [Laugh and Learn video - Porn](#) (4min 40sec) to determine suitability for your students.
- Be aware that some students undertaking this lesson may have viewed pornography either purposely or accidentally. Some may not be aware of what porn is at all. Emphasise that you do not want to know who has or hasn't seen porn. Be prepared for possible [disclosures](#) and know [protective interrupting](#) techniques.
- There are many definitions of pornography. The [Oxford Dictionary definition of pornography](#) (as used in this activity) is 'Printed or visual material containing the explicit description or display of sexual organs or activity, intended to stimulate sexual excitement.'
- Consider your own thoughts, opinions, attitudes and values about pornography and be aware of how they may influence the way you present this activity.
- Background professional reading:
 - [The naked truth - kids, teens, pornography and screens](#) - Dr Kirsty Goodwin (external site)
 - [Porn and the law](#) - Youth Law Australia (external site)
 - [We need a new definition of pornography - with consent at the centre](#) - ABC opinion piece (external site). New definition of porn 'Material deemed sexual, given the context that has the primary intention of sexually arousing the consumer and is produced and distributed with the consent of all persons involved).
 - [The pornography problem plaguing parents](#) (external site) - Free 75min webinar suitable for educators and parents from Dr Kirsty Goodwin.

Learning Activities

Group agreement

3 Minutes

Whole Class

Teaching tip: This lesson should only be facilitated by a teacher that knows the class very well and is aware of students background and knowledge. Extensive work developing a safe space to discuss sensitive topics and a well established group agreement is vital before facilitating this lesson. Read: [Essential information - Establishing a group agreement](#) for tips on how to create one and what to include.

1. Revise the class [group agreement](#).
2. Remind students that throughout the lesson they can write any questions down and add them to the question box at the end of the lesson (if they do not wish to ask them during the lesson). See [Essential information - Setting up a question box](#).

Trigger warning

3. Say: "This lesson covers the topic of pornography which some students might find challenging. Please let me know if you need to take a break."

Teaching tip: Strict timing of activities is essential in order to keep students focused and on track with this lesson and to avoid too much 'side conversation'. It may be useful to have additional adults in this session (e.g. Community health nurse)

,

Learning Activities

Definition

3 Minutes

Whole Class

4. Ask students: What do you understand by the term 'pornography'? Stress that you do not want to know who has or hasn't seen porn and you do not want stories. (Refer back to the [group agreement](#).)
5. Take answers from volunteers. (Possible answers may include: videos of people having sex, sex online, pop-up ads, sexy videos on your phone. Less likely answers may include: nudes, nude magazines, etc. Young people may also list websites where porn can be accessed and/or name categories or types of porn. Teachers need to consider how this discussion will be managed and directed).

Teaching tip: Pornography can be difficult to define, as there is a general lack of agreement over exactly what constitutes pornography. The definition is largely influenced by the time and context as well as cultural and moral values.

Pornography has existed throughout history in the forms of cave drawings, erotic fiction, nude magazines, video tapes and DVDs. In the online era, pornography can be in the form of online videos, online images, live video cams, sexting, social media, dating apps, messaging, pop-ups, the list goes on. Young people today generally do not consider still images or text as pornography. Whether a photograph is considered pornography is largely down to context. For example, a picture of a naked person in a magazine such as National Geographic would not typically be considered pornographic, because it is not designed to sexually arouse. A photo featuring an individual in the same stages of undress will likely be considered pornography when it is displayed in the pages of an adult magazine that is intended to elicit arousal.

6. Say: "There are many definitions of pornography. The Oxford Dictionary definition of pornography is the one we are going to use in this activity. Pornography is... Printed or visual material containing explicit description or display of sexual organs or activity, intended to stimulate sexual excite."

,

Learning Activities

Laugh and learn video - porn

10 Minutes

Whole Class

7. Watch [Laugh and learn - porn video](#) (4min 39sec).
8. Ask: Think about 1 piece of information that surprised you in this video.
9. Take answers from volunteers. (Possible answers may include: Didn't think that it was fantasy; hadn't thought about consent or safer sex issues before; thought it would have been more realistic; etc).

Teaching tip: It is vital to only ask for volunteers to contribute to class discussions on sensitive topics such as porn. See [group agreement - 'right to pass'](#) for further information.

Learning Activities

Graffiti wall: The who, what, where, when, how, why and why not

15 Minutes

Small Group

Teaching tip: It is not advised that this activity be carried out in small groups due to the sensitive nature of the topic. Teachers need to facilitate this activity carefully, being prepared to [protectively interrupt](#) and ensure discussions remain respectful and 'on track'.

10. If room allows, have students sit in a horseshoe arrangement and place the [Graffiti wall display cards](#) in the middle of the group to allow for close monitoring of student discussions/input. (If space is not available, the [Graffiti wall display cards](#) can be placed on the walls around the room).

Teaching tip: This activity could be run outside or in a hall as long as the area provides enough privacy for students to feel safe to participate in the lesson.

11. Place the 'What?' [Graffiti wall display card](#) in the centre of the floor space/wall. Provide students with small scraps of paper or sticky notes to write on.
12. Place the 'Who?' [Graffiti wall display card](#) on the floor/wall and ask students to silently and individually think about their own answers to the question.
13. After 30 seconds, invite students to write answers on sticky notes/scraps of paper and place them around the 'Who?' card. Remind students that you do not want personal stories or names of people. Answers will vary greatly depending on values and experiences. Teachers may need to address stereotypes (e.g. only guys watch porn) and values (e.g. weirdos watch porn). All sorts of people, everyone, guys, not girls, old men, horny people, teens, over 18 years, women, young people, creeps, weirdos, perverts, sex addicts.
14. Repeat this process for the 'Where?', 'When?', 'How?', 'Why?' and 'Why not?' cards allowing students to first think about their answers silently and individually before calling upon students to place their sticky notes/scraps of paper.

Possible answers:

Where? Students are likely to say places such as online, on phone, pop-up ads. They are less likely to suggest nude magazines, sexting, naked sexual photos of themselves or peers (nudes), porn DVDs, naked video cams, sex phone lines, erotic novels as porn. Some students may list

porn sites - it is important to think about how you want to guide this discussion depending on the experiences of other students in the room. Discussions on whether some music videos, billboards, artwork and TV/magazine adverts could be considered porn could be included. Students may also list places such as: in a bedroom, at a party, at a friend's house, etc. When? Students are likely to acknowledge that it is easy to access porn anytime or accidentally. Some may acknowledge that it is something to do in private. Some students may raise the topic of age (i.e. when you are 18, you can watch R and X-rated movies are for 18+). [See FAQ: Is it illegal to watch porn?](#) How? Online, on purpose/accidentally, on your phone/computer/ipad, sex store, friends sending it to you, group chat, pop-ups, buy online, buy in shop, sign in (over 18 years). NB: It is important that these answers come from students. The aim is not to inform students of places to access porn but to make them aware that it is easy to come across porn accidentally. It is also to educate young people that some sexting and group chat messages could be considered porn. Why? Curiosity, it's funny, because they are horny, because they want to masturbate, enjoyment, to be part of a crowd, to learn about sex. Why not? It is not realistic, it can objectify and exploit women/men/all genders, often violent and aggressive, doesn't portray respectful relationships, not a good way to learn about real and respectful sexual relationships, etc.

See [Graffiti wall teacher answer sheet](#) for more detailed lists of possible answers.

Teaching tip: This activity may be completed electronically using programs such as [Mentimeter](#) to allow students to contribute answers more anonymously (allowing them to feel safer to contribute without judgement from peers). However, this may make student answers harder to monitor/direct if 'off track'.

Learning Activities

What to do if you don't want to see it

8 Minutes

Small Group

15. Ask: If someone comes across porn that they do not want to see, what are some of the feelings they might have? (Uncomfortable, distressed, embarrassed, worried, disgusted, feel bullied, unsafe, guilty, shocked, icky, sick, have 'butterflies' in their stomach, etc). What actions can someone take if they feel this way? (Create a list as students suggest answers and make sure to add any they have left out)
 1. Press delete.
 2. Be assertive and tell the person showing you that you are not interested and ask them to stop.
 3. Walk away.
 4. Talk about your feelings with someone you trust (e.g. trusted adult in your family, or a friend or at school, counsellor, etc).
 5. Report it officially (can be anonymously).
16. Show the [eSafety Commissioner home page](#) and how to [report offensive or illegal content](#). (The [WA Police website - Internet safety](#) also offers ways to report illegal content and abuse).

3-2-1 Reflection

Reflection: key words

6 Minutes

Whole Class

17. Say: "I am going to write 5 key words that I think came out of this lesson. I want you to consider what you think were the key ideas of this lesson and record your 5 words."
18. Write consent, fantasy, reality, relationships, education (these could be on the IWB with a cover, on sticky notes, or a piece of paper folded).
19. Ask for suggestions from students as to what your key words might be. Compare with student suggestions to see if they were able to identify the key ideas/concepts of the lesson.

It does not matter if the students get the same words or not. This activity will allow students to reflect on their learning and allow the teacher to gauge what students have learnt from the lesson. Key words are also a great exercise for CaLD students, students with lower literacy levels and/or special needs.

3-2-1 Reflection

Optional activity: Porn - what you should know

[The practical guide to love, sex and relationships](#) is a free national resource developed by the Australian Research Centre for Sex, Health and Society, La Trobe University. It contains lesson plans and resources for Years 7-10.

Porn, what you should know is a 6 min animated video with accompanying lesson plan and activities that is designed to explain the differences between real-life sexual relationships and porn sex to help young people to critically analyse porn (and other media in general).

[Porn, what you should know - lesson plan and resources](#) (external link) (PDF 557KB).

[Porn, what you should know - 6min video](#) (external link).

Health Promoting Schools

Background teacher note: [Health promoting schools framework](#).

Partnerships with parents

Keep parents informed of issues of online pornography and their child by cutting and pasting the following information and links to your school newsletter and/or website.

Online pornography education

- [eSafety research](#) on parenting and pornography shows that 77% of families with children between 6 and 17, consider it their responsibility to educate them about pornography.
- How parents reacted to finding out their child had been exposed to pornography
 - spoke to them frankly - 61%
 - increased monitoring/supervision of what they do online - 19%
 - installed internet filters - 20%
 - talked to the person who sent/showed them the material - 19%
- While half of parents said they know where to access parental information and resources about children and pornography, a quarter of parents surveyed did not.

eSafety resources

The [eSafety iParent site](#) offers clear guidance for families about how to discuss [online pornography with children of different ages](#) and includes conversation starters.

- 0-8 years: if they have seen it, avoid punishing them.
- 8-12 years: build trust and start an ongoing conversation.
- 12 years and above: start to talk about thoughts they may be having and the difference between pornography and real life.

Offensive or illegal content can be reported via the [eSafety Commissioner](#) (external link).

Further advice on talking to young people about pornography can be found on the [Raising Children Network site](#) (external link).

[The pornography problem plaguing parents](#) - Free 75min webinar suitable for parents from Dr Kirsty Goodwin (external site).

Health Promoting Schools

Further professional reading

[The effects of pornography on children and young people 2017](#) - AIFS (external link)

[Parenting and pornography: findings from Australia, New Zealand and the United Kingdom: Summary report 10/12/18](#) (PDF 459KB).

Some of the key findings include:

- the risk of children's exposure to pornography was a strong concern for parents
- parents were relatively confident about their ability to see out relevant information and deal with their children's potential exposure to pornography
- only a minority of parents in Australia and New Zealand thought their children had been exposed to pornography.

[Collective Shout](#) is a grassroots campaigns movement against the objectification of women and the sexualisation of girls. It is for anyone concerned about the increasing pornification of culture and the way its messages have become entrenched in the mainstream society, presenting distorted and dishonest ideas about women and girls, sexuality and relationships.

Sexting: To send or not to send

Learning objective

Students use the *Laugh and learn* video and a decision mapping process to explore situations where people might be asked to send a sext. Emotional, social, ethical and legal consequences of sending or not sending a sext are unpacked. WA image-based abuse laws and where to go for help are also covered.

Take Home Messages

Remind students of the take home messages:

Unwanted sexting is disrespectful, harassment and against the law.

Sharing, or threatening to share, another person's sext/nude without their consent is image-based abuse and is against the law..

There are actions that can be taken and support available if you receive an inappropriate text messages and/or pictures or if your pictures are shared without your consent.

Sending sexts/nudes can have emotional, social, ethical and legal consequences.

It is easy to lose control over who sees a sext/nude.

It is important to think about potential consequences when making decisions about sexting.

Curriculum Links

Year 8

- The impact bullying and harassment can have on relationships, including online relationships, and the health and wellbeing of themselves and others ([ACPPS074](#))

Year 9

- Impact of external influences on the ability of adolescents to make health and safe choices relating to: sexuality; and risk taking ([ACPPS092](#))
- Strategies are examined, such as communicating choices, seeking, giving and denying consent, and expressing opinions and needs that can support the development of respectful relationships, including sexual relationships, for example: investigating the Western Australian legal requirements in relation to seeking, giving, refusing and accepting the refusal of consent, and considering how these laws relate to relationships with friends, colleagues, strangers and intimate partners, in both online and offline interactions.

,

Curriculum Links

Year 10

- External influences on sexuality and sexual health behaviours, including the impact decisions and actions have on their own and others' health and wellbeing ([ACPPS092](#))
- Skills and strategies to promote respectful relationships, such as: appropriate emotional responses in a variety of situations; taking action if a relationship is not respectful; appropriate bystander behaviour in physical and online interactions ([ACCPS093](#))
- Effects of emotional responses on relationships, such as: extreme emotions impacting on situations or relationships; the consequences of not recognising emotions in others ([ACCPS094](#))

,

Curriculum Links

Key understandings

Unwanted sexting is disrespectful, harassment and against the law.

Sharing, or threatening to share, another person's sext/nude without their consent is image-based abuse and is against the law.

There are actions that can be taken and support available if you receive an inappropriate text messages and/or pictures or if your pictures are shared without your consent.

Sending sexts/nudes can have emotional, social, ethical and legal consequences.

It is easy to lose control over who sees a sext/nude.

It is important to think about potential consequences when making decisions about sexting.

Materials

- [Laugh and learn video - sexting](#) (2 min 12 sec)
- [eSafety - image based abuse video](#) (2 min 30 sec)
- Access to [Youth Law Australia - Sexting](#) web page
- Sticky notes (or small pieces of scrap paper)
- Pens
- A large floor space or wall space to place sticky note flow chart
- Optional: PowerPoint slides - To send or not to send?
- Optional: Take home activity sheet - To send or not to send? (1 per student) - electronic or hard copy
- Optional: Posters printed from Department of Justice (link provided in Before you get started section)

Before You Get Started

- Be aware that some students undertaking this lesson may have sent or received a sext. Emphasise that you do not want to know who has or hasn't sent or received a sext.
- [Protective interrupting](#) - Teachers need to know and understand how to use this technique to prevent students from potentially disclosing sensitive information or abuse in front of other students.
- [Dealing with disclosures](#) - Teachers must be aware of the school and legal procedures if a student discloses personal issues, particularly disclosures of sexual abuse.
- [Exploring my own values](#) - Consider your own thoughts, feelings, attitudes and values on this topic and be aware of how they may influence the way you present this activity. Be aware of your own self-care and support networks. Read [The art of safe sexting](#), [How to practise safe sexting](#), [Everything you need to know about sexting](#). Ideally, these and other associated issues need to be covered and extended in more lessons.
- Liaise with the school health team (e.g. Community health nurse, school psychologist) to inform them of the content you will be covering in class. It may be helpful to have these additional adults in these lessons or on standby for any individual or small group work that may need to take place.
- Preview [Laugh and learn video - Sexting](#) (2min 12sec) and [eSafety - Image based abuse](#) (1min 50sec) to determine suitability for your students.
- Teachers should be familiar with the laws on [sexual consent, sexting](#) and [image-based abuse](#).
- Visit [eSafety - sexting](#) for background information on the what, why and how of sexting.
- Sexting definition: Most sexting is done with a mobile phone but it also occurs through social media and other online activities. Sexting can include a range of behaviours and content, from sending flirtatious text messages to more intimate material, like taking and sharing nude photos or videos capturing sexual acts. The term 'sexting' is not often used by young people or in popular culture. 'Nudes', 'naked selfie', 'pic for pic', 'dic pics' are some of the terms young people might use. Other terms include intimate images, sexually explicit images or messages.
- Students may bring up popular media (tv shows and movies) which deal with image based

abuse, youth suicide, mental health and other issues faced by teens. Sometimes organisations like eSafety Commissioner have created resources to support use of popular media in the classroom.

- Optional: Print Department of Justice posters.

Learning Activities

Group agreement

Teaching tip: A group agreement must be established before any Relationships and Sexuality Education (RSE) program begins to ensure a safe learning environment. Read: [Essential information: Establishing a group agreement](#) for tips on how to create one and what to include.

1. Revise the class [group agreement](#).
2. Remind students that throughout the lesson they can write any questions down and add them to the question box at the end of the lesson (if they do not wish to ask them during the lesson).
See [Essential information - Setting up a question box](#).
3. ??Trigger warning

Say:

"This lesson covers topics that can sometimes be difficult for people. Please let me know if you feel you need to take a break from the room."

Before we start, let's check that everyone knows where to go for help if you want to check anything that this lesson raises for you."

4. Ask students:

? Who are some trusted adults you can talk to?

(Possible answers: parents, grandparents, teacher, older siblings, doctor, other family members, etc)

Teaching tip: It is important not to tell students who their trusted adults are or should be. You can offer a list of suggestions of who they might be. For some students, some of the people you suggest, may not be people that are safe for them to talk to. Students should not be made to share their list of trusted adults publicly unless they wish to do so.

? Who are some people at this school that you can talk to?

(Possible answers: class teacher, other teachers, school psychologist, community health nurse, youth workers, etc)

Say:

"During the lesson we will also be learning about some services and online support that is available."

Introduction: Definition

5. Ask students what they understand by the term 'sexting'?
6. Take answers from volunteers.

Teaching tip: Students need to feel safe and supported in lessons on sensitive topics such as this. They need to know that they will never be called upon to answer questions and that you will only ever ask for volunteers for contributions.

5. Say:

"Sexting refers to using a mobile phone or the internet to take, ask for, receive, send or share intimate text, photos or videos including where someone is naked, partly naked, posing sexually or doing a sexual act. These are sometimes known as 'nudes', 'sexy pics' or 'noodz' or some of the words that you have already said. They are also known in legal terms as sexually explicit images or messages, or intimate images."

Thumb quiz: Legal, not sure, illegal

6. Teaching strategy: [Thumbs up/down quiz](#). Ask students to indicate their answers:
 - thumbs up = legal
 - thumbs down = illegal
 - thumbs sideways = not sure.
7. Read and display the following scenarios on the board (See [To send or not to send PP teacher resource - slides 7-18](#)).

Teaching tip: The language in the following scenarios deliberately limits the use of gender pronouns in order to avoid gender stereotyping who sends/shares images and to be inclusive of gender and sexual diversity. Students can make their own decisions about the gender of the individuals in the scenarios.

- An 18 year old girl sends a naked image of herself to an 18 year old guy she likes.

(Legal, but if he didn't want this, it might be sexual harassment depending on circumstances.)

- A 20 year old girl sends a naked image of themselves to their 21 year old partner

(Legal)

- A 16 year old consensually sends a nude to their 16 year old partner.

(Despite being of legal age to have sex, and legal under WA laws, this is illegal under federal laws which override state laws. If a person under 18 takes a naked picture of themselves, it can be considered creating child exploitation material. Sending it to a partner can be considered distributing child exploitation material. These laws are designed to protect children from exploitation however, young people consensually sharing images can still be prosecuted under these laws.)

- A 21 year old shares the image of their partner with several of their friends.

(Illegal if they did not ask for their partner's consent to share the images.)

- A teacher 'follows' students on Instagram and make personal remarks.

(Legal but breaches professional conduct. [Guidelines for the Use of Social Media - The Department of Education](#).)

- After breaking up with their 16 year old partner, a 17 year old threatens to send an intimate image of them to their mates.

(Illegal to threaten to send an intimate image (WA law) and illegal to send an intimate image of a person under 18 years of age (Commonwealth law).

Laugh and learn video - sexting

8. Watch [Laugh and learn - sexting](#) (2min 12sec).

Teaching tip: CaLD students and students with special needs could potentially be confused between pimple popping and sexting. It is important for teachers to decide the suitability of this content for their students and to address any misconceptions that may arise.

9. Ask:

? What are some of the key messages from the video?

(Non-consensual sexting is disrespectful, harassment and against the law; issues can follow you the rest of your life - whether you send, receive or share an intimate picture; it is easy to lose control over who can see an image once it is sent; there are things you can do if you receive an unwanted sext.)

To send or not to send?

10. As a whole class create a 'choose your own adventure' style flow chart using sticky notes. This can be created on the floor, on desks pushed together, on a wall or a window.

Teaching tip: This activity should not be conducted in small groups unless there are enough adults to facilitate each group. This is vital to ensure students adhere to the group agreement (e.g. no sharing personal stories). Ensure all adults facilitating groups are familiar with [protective interrupting techniques](#) and how to [deal with disclosures](#).

11. Provide each students with a small stack of sticky notes (or scrap paper).
12. Guide students through the following steps either using the [To send or not to send PP_teacher resource \(Slide 20-33\)](#) or by reading the instructions aloud.
13. Say:

" Describe a scenario in which a person might be asked for a nude. This is to be a hypothetical situation so no names of people we know and no personal stories."

? What are the names of person A and B?

? What are their genders?

? How old are they?

? How do they know each other?

? What app/device are they using to chat?

Teaching tip: It is important to remember that students in the class are likely to have experienced similar situations either directly or indirectly and it is vital for everyone to maintain confidentiality and not to disclose personal stories of their own or others. Offer students the opportunity to talk to you (or

another trusted adult) in private if they have any concerns they would like to raise. The [question box](#) is another way of offering students opportunities to raise issues privately. Students can indicate that they would like time with you, the school counsellor/nurse by placing a note in the question box and including their name on the note.

Discuss some of the potential stereotypes:

? Is it always the guy asking for nudes?

? Is it always the girl being pressured?

? Is it always a heterosexual relationship?

14. Write down the scenario and place it on the floor/wall where you will be displaying the 'choose your own adventure' flow chart.

15. Say:

"What might person B's response to this request be? Write it down on your sticky note and place it along side the scenario to show the different ways the conversation might develop."

Ask:

? Do they want to send the nude?

? Do they feel safe?

? Is there trust?

? Do they feel pressured?

? How do they negotiate the situation? (diversion, humour, respectful, disrespectful)

? Do they consensually send the nude?

? Do they send a pic without showing their face or identifying features?

16. Ask:

? What might person A reply?

(anger, humour, pressure, respects answer and doesn't ask again, cuts off conversation, dumps person B, asks for more, call person B names for either sending it or not sending it)

17. Have the students continue the potential responses along the 'choose your own adventure' path.

18. Ask:

? What might happen as a result if they send the nude or if they don't send the nude?

? What are the emotional consequences?

(May feel regret for sending it; may feel mortified if it gets shared with others; may feel OK about sending it; may feel happy/sexy/flirty/etc sending it; may feel scared; etc)

? What are the social consequences?

(Friends/colleagues might judge you; may end the relationship; may start a romantic/sexual relationship; may bring person A and B closer; may cause person A and B to fall out; excluded from friends; family fall out; etc)

? What are the ethical consequences?

(Is it ethical to ask for a nude or should you wait to be asked? Is it ethical to assume a partner would be OK receiving a nude image? If someone has shared nudes with lots of other people, is it OK to share the image? What if there is a large gap in the age of the people sexting? etc)

What the law says

19. Have students read the [Youth Law Australia - Sexting](https://yla.org.au/wa/topics/internet-phones-and-technology/sexting-laws/) webpage (https://yla.org.au/wa/topics/internet-phones-and-technology/sexting-laws/) . This could be as a whole class, on individual devices or printed copies.

Teaching tip: Ensure that the Youth Law Australia website is set to 'Showing laws for WA' so that the information displayed is accurate for WA.

19. Say:

"It is against the law for ANY person to take, keep or share intimate images when it involves someone under 18. It is against the law to share or threaten to share an intimate image of a person of ANY age without their consent. No doubt there are many people - adults and young people alike - who are unaware of these laws. Why do you think not knowing this information could be very dangerous for some people?"

20. Ask:

? What are the legal consequences?

(If under 18, could be charged with creating/distributing child exploitation material; could be put on child sex offenders register; could impact future employment and housing options; could be fined or imprisoned; could be no legal consequences; may be completely legal; etc)

? Who could get prosecuted in each of the scenarios we looked at in Too send or not to send?

(Any that involve people under 18. Any that involve harassment)

? Who would get prosecuted in each of these scenarios?

(It is impossible to tell. Laws are designed to protect young people from exploitation but the laws are still written in such a way that young people can potentially be charged. The laws place the emphasis on non-consensual sharing of images, pressure, harassment and 'sextortion' - threatening to share images)

Where to go for help

21. View [eSafety what is image-based abuse video](#) (2 min 30 sec)

22. Ask:

? Where can a young person go for help in these situations? What can they do?

(Tell a trusted adult, block the person on social media, report it on the eSafety site, contact Headspace, Kidshelpline, a school counsellor)

23. Show students the [eSafety Commissioner website](#) and go through the steps of 'What to do?'

24. Ask:

? What strategies have you seen in this process that you might recommend to a friend who was in a similar situation?

Teaching tip: It is important to keep questions 'a step removed'. Asking students what they would recommend to a friend allows them to think of useful strategies for themselves without having to say, 'I would do this' which could make them feel vulnerable and/or potentially disclose personal information.

3-2-1 Reflection

25. Ask students to share with another person:

? What is the most important thing you have learnt from doing this work on sexting?

? Who will you share this information with?

,

3-2-1 Reflection

Take home activity

1. Ensure students have internet access at home to access the [Youth Law Australia - Sexting](#) website or provide each student with the handout [Western Australia's new intimate intimate laws: Frequently asked questions](#).
2. Give each student the [Take home activity sheet: Sexting - To send or not to send?](#)

Health Promoting Schools

Health promoting schools strategies

Background teacher note: [Health promoting schools framework](#).

Partnerships with wider community

- [Talk soon. Talk often: a guide for parents talking to their kids about sex](#) is a free resource that can be bulk ordered by schools and interactive website. Consider sending a copy home to parents prior to starting your RSE program or providing a link to your website/e-news for parents and carers. The booklet offers age and stage related information on sex and relationships so that the topics covered in class can be reinforced at home. ([How to order hardcopies](#).)
- Send copies of the free resources [Relationships, sex and other stuff](#) and/or [Send noods?](#) home or provide in the lesson. ([How to order free copies](#).)
- Run a parent and carer workshop prior to delivering RSE lessons so that parents and

carers can see the resources used, ask questions and find out how to support the school program by continuing conversations at home.

- Keep parents informed of the WA intimate image laws by adding these links to your school newsletter/social media/website
 - [Western Australia's new intimate image laws: Frequently asked questions](#)
 - [eSafety Commissioner - Sending nudes and sexting \(parents\)](#)

Respectful vs disrespectful relationships

Learning objective

Students develop an understanding of respectful relationships using fun interactive games, and identify the characteristics of respectful and disrespectful relationships.

Take Home Messages

-

Curriculum Links

Year 10

- Different people value different qualities in relationships.

,

Curriculum Links

Key understandings

- Decisions about sex, gender, respect and relationships are personal and different for different people.
- These decisions may be affected by beliefs, faith, culture, friends, age, gender and a desire to fit in.
- The choices we make can change depending on who we are and what's happening around us now.
- We experience many different kinds of relationships and love.
- It is important to be able to identify aspects of a respectful and disrespectful relationship.

Materials

- Teaching Resource: Relationship cards [3 cards per student]
- Sticky tape
- Butcher's paper
- Teaching Resource: Relationship board game pieces [photocopy one set per group]

Before You Get Started

- Teachers should know and understand the [protective interrupting](#) technique and what, why, when and how it is needed and used before facilitating this activity. It is important that teachers are familiar with the [Dealing with disclosures](#) Guide and have a risk management strategy in place.
- Refer to the Guides: [Adolescent relationships](#) and [Healthy relationships: Gender, power and](#)

[consent](#) for further content information related to this activity.

- Provide students with a copy of [Relationships, Sex and Other Stuff](#) to take home and read and discuss with their family.

Learning Activities

Whole Class

Students share values about sexual relationships and identify the qualities that they value in a relationship through a negotiation process to simulate a real-life relationship.

1. Read the statements below about sexuality and gender roles, or develop your own statements that are likely to create a difference of opinion. Using signs spread across the floor to create a four-point continuum ('strongly agree', 'agree', 'disagree', 'strongly disagree'), ask students to physically move to the position which best reflects their view. A piece of rope or string on the floor, or a chalk line drawn on the floor, can also be used so students can actually stand on the line. Remind them of the ground rules they have developed and demonstrate what this actually means, i.e. to listen, show respect etc.:
 1. Boys always put pressure on girls to have sexual experiences.
 2. Having sex should be something that both people want to do.
 3. If you love your boyfriend/girlfriend you have to have sexual experiences with them.
 4. Beliefs about gender vary from one culture (or society) to another.
 5. Cultural norms affect laws and policies about sexuality.
 6. Contraception is a girl's responsibility.
 7. It's hard for same sex attracted people to come out at our school.
 8. Young people should experiment with sexual experiences.
 9. Sexual intercourse should only be with someone you love.
2. Ask:
 1. How do you think you developed your position/s [on this statement]?
 2. If you asked your parents to do the same activity, where do you think they would position themselves?
 3. What differences do you think there might be if we did this with only girls or with only boys?
 4. What differences do you think there might be if we did this with a group of same sex-attracted young people?
 5. What differences could strong beliefs have on how young people would position themselves?
3. Explain that we have many different kinds of relationships and many different kinds of love. There are many different ways to love somebody. People may feel love for members of their immediate or extended family, for close friends, and for their partners or spouse of the same or the other sex. The terms 'true love' or 'real love' often refer to an intimate partner bond that has moved beyond the 'falling in love' or infatuation stage. Sorting out feelings of affection, romantic love, sexual desire, and 'true love' is often difficult and confusing. Everyone receives messages from their culture about what love is, whom we should (or should not) love, and how we should express (or not express) our love.
4. Have students work in small groups to develop their own definitions of love, sexual desire and intimacy and whiteboard common findings. For instance: Love: A deep feeling of affection, attachment for another person. Sexual desire: A wish, longing or craving, especially for sexual activity. Intimacy: The capacity to relate to another person in an emotionally open, equal, and caring way – feeling free to express your inner most feelings.
5. Draw a boat on the board called a 'Relation-ship'. Ask students to nominate one quality that they would value in a romantic relationship that they would like to bring on board. Record these suggestions on the board.
6. Give each student three relationship cards from the Teaching Resource: Relationship cards.

Allow 10 minutes for students to bargain and trade their cards with other students for cards with attributes that they value the most in a relationship.

7. Ask students to report on what cards they have and their experience of negotiating with other people for cards that they wanted.
 1. What cards do you have?
 2. What cards did you want?
 3. Was it difficult or easy to get the cards that you wanted?
 4. How is this similar to a family relationship?
 5. Discuss that sometimes the positive qualities that we bring to our relationships can also be negative. For example, honesty can be a good quality but it can also be hurtful. Ask students to reflect on this and think about how their qualities could be either positive or negative.

Alternative activity: Place students into small groups. Laminate the cards and place a magnet on the back of each one. Provide each group with a pile to scatter face down. Students can make fishing lines out of their pencils with a piece of string and a magnet on the end. Students each start off with 3 cards and can take turns fishing for better cards, trading as they go. For each turn they must explain why they decided to either keep or trade their card.

Learning Activities

Independent or Small Group

Students explore positive and negative aspects of a romantic relationship.

1. Have students use [graffiti sheets](#) (butcher's paper) or the board to [brainstorm](#) examples of positive or negative romantic relationship situations (e.g. your boyfriend/partner puts pressure on you to do something you don't want to do; or your girlfriend/partner calls you to wish you good luck for your music exam).
2. Ask students to work in groups of four to construct their own board game called 'Relationship' that deals with romantic relationship situations. Use the Teaching Resource: Relationship board game pieces to assist students.
 1. Explain that each group of four is to construct a set of 24 game cards that describe positive or negative actions that affect a relationship.
 2. Each card will need to outline a positive or negative relationship situation and the amount of spaces that the player moves forwards or backwards if he/she were to experience this situation. Some examples are 'Your boyfriend/partner asks you to come to a family dinner - forward two places' or 'You have a huge shouting match with your girlfriend/partner on the way to school – move back one place'.
 3. Discuss the need to have appropriate rewards and penalties for different relationship situations.
3. Each group's cards are shuffled and given to another group. They should then be placed in the middle of the game board. Each student has a token that represents him/her and they take it in turns to select a card and move around the board. After all cards are used they are re-shuffled and the game continues. The aim is to be the first person to get to the treasure chest.
4. Whole class alternative: If time permits, write relationship situations on the board, dividing the board into four squares. Have students read the situations on their group's cards and stick each relationship situation card under one of the following headings – family, personal, friendships and acquaintances. Encourage students to discuss if they agree or disagree with the 'placement' of the situation.
 1. Discuss how relationships vary depending on which category (family, personal, friendship, acquaintance) they relate to.
 2. Allocate specific relationship categories (and the associated situations) to pairs of

students and ask them to discuss how to either avoid a negative outcome or enjoy the benefits of a positive outcome.

3. Have students suggest and demonstrate the use of assertive and active listening and speaking skills to improve each relationship situation.

3-2-1 Reflection

Reflection

1. Explain that just because you're in love does not necessarily mean you are ready to have sex. Because love is different for everyone, there is not a checklist for you to go through to make sure this is the real thing. However, there are some indicators, such as: trusting the person; knowing that even when you're not together there is an emotional attachment; being able to be yourself when you're together; sharing some common values and interests; and enjoying each's company.
2. Students discuss and/or write responses to:
 1. What are some of the best strategies you have used to maintain the quality of a relationships with your:
 1. family?
 2. friends?
 3. boyfriend/girlfriend/partner?
 2. How does the type of relationship (e.g. family, friends, or boyfriend/girlfriend/partner) change the way that we act?
 3. Which types of relationship problems can be the most challenging to deal with? Why?
 4. What are some things you can do to improve your relationships with family and friends?
 5. What are some things you can do to improve your relationships with your boyfriend/girlfriend/partner?
 6. Given there are some negatives to loving someone, why do people take the risk of falling in love?
 7. How might you be able to lessen the impact of the negatives? For example, if one of the negatives is breaking up, how might that occur with as little impact/sadness as possible?
 8. Where can people get help if they are having difficulties in their relationship?
 9. If you were in a respectful relationship, how do you think you might feel?
 10. If you were in a relationship that was not respectful, how do you think you might feel?

Power to manage relationships

Learning objective

Students explore skills needed when dealing with challenging relationships and unsafe situations.

Take Home Messages

-

Curriculum Links

Year 10

- When dealing with challenging or unsafe situations, students develop the knowledge and skills needed such as, refusal, communicating choices, acting assertively, expressing thoughts, opinions & beliefs and initiating contingency plans.

Curriculum Links

Key understandings

- Adolescence is a period of dramatic physical, social and emotional change involving many new feelings and experiences.
- Sexual feelings are a normal part of adolescent change.
- Sexual activity has physical, social, emotional and legal implications.
- Individuals are responsible for the decisions and choices they make regarding their sexual behaviour.
- People have different attitudes, values and beliefs towards sex and sexuality.

Note: The small group Party Script activity should not be attempted before the Year 9 activity [Sexual consent and the law](#) has been completed.

Materials

- Teaching Resource: Sexuality cards [one class set]
- Teaching Resource: Respect and Consent Quiz [one quiz per student and one teacher answer sheet]
- Teaching Resource: He said, she said party script [one 2-sided copy per group]
- Internet access

Before You Get Started

- Self-esteem and confidence of some students may be an issue during this activity. Be reassuring and support students as they develop the ability to practise assertive “no” statements. This will also help students with their development of resilience and emotional wellbeing. See the Guide: [Resilience and life skills](#) for more information.
- It is possible that a student may have been involved in a traumatic experience relating to sexual abuse. Teachers should know and understand the [protective interrupting](#) technique and what, why, when and how it is needed and used before facilitating this activity. It is important that teachers are familiar with the [Dealing with disclosures](#) Guide and have a risk management strategy in place.
- Refer to Guides: [STIs/BBVs](#), [Establishing ground rules](#) and [Healthy relationships - Gender, power and consent](#) for further content information related to this activity.

Learning Activities

Whole Class

The following activity is intended to be used as an ice-breaker exercise to provide an opportunity to introduce some sexuality and relationships terminology that may be used and/or referred to throughout the lesson.

1. Before the lesson prepare a class set of the Teaching Resource: Sexuality cards.
 1. Note: There is space provided to add in other words that are relevant to the class or words that have been brought up and discussed before.
 2. Make sure the additional words are relevant to the activity and remove those that may not be appropriate for the group.

2. Have the whole class sit in a large circle.
3. Outline the rules of the activity:
 1. Review the class ground rules, or if there are none, propose the following as a discussion in establishing a set all students will agree to before proceeding:
 1. no put downs - Everyone has the right to their beliefs, values and opinions
 2. no personal questions
 3. everyone has the right to pass (not to answer questions)
 4. all questions are good questions (even if they are provocative!)
 5. listen when other people are speaking
 6. respect the opinions of others
 7. use correct terminology
 8. use inclusive language
 9. maintain confidentiality - What is said in the room stays in the room (apart from the exception of the teacher's duty of care regarding mandatory reporting).
 10. no identifying information - If a student is telling a story about a friend they should not include their friend's name or any identifying information. Students should be encouraged to talk in the third person i.e. 'a person I know'
 11. Refer to Guide: [Establishing Ground Rules](#)
 2. The first student selects the top card from the deck of sexuality cards. They say the first word that comes to mind relating to the word on the card, for example, naked = sex; tolerance = acceptance; flirting = fun etc.
 3. Students place their card to the bottom of the 'deck'. This continues around the circle.
 4. It's important to remind students that they are allowed to 'pass' if they don't feel comfortable speaking about their word (refer to class ground rules). Discuss with students the importance of respecting and supporting the choices of others and their own values and beliefs.
4. Sit in the circle with the class. Model the first selection.
 1. Remind the class that although there are likely to be words mentioned that we may not say or talk about at school, we need to make sure that the words used are not offensive to other students.
 2. Emphasise that some words can have different meanings for different people, so it is important to communicate more about these topics if needed, to create a shared understanding.
5. When everyone has had a turn with a card, ask students to reflect on the activity. Pose the questions:
 1. Why is it important to know about words relating to sexuality and relationships?
 2. What is the problem, if at all, if we all have different understandings of; and meanings about these words?

Learning Activities

Independent or Small Group

Note: The Year 9 activity [Sexual consent and the law](#) provides important background information for students to develop an understanding of consent, sexual consent and the importance of making informed decisions. It is considered a pre-requisite for the 'He said, she said' party script activity.

Respect and Consent Quiz

The following activity will provide important information to remind students about respect, consent and consent and the law.

1. Give each student a copy of the Teaching Resource: Respect and Consent Quiz (alternatively,

display the Quiz electronically and ask students to note their own True/False responses in their notebooks).

2. Have students complete the activity independently and then go through the correct answers with the whole class. (there is additional information for the teacher in the Teacher Guide).
3. Determine if the class is ready and there is time to proceed with the 'He said, she said' Party Script Activity based on their level of understanding about consent.

'He said, she said' Party Script Activity

The script will form the basis of discussion as students review and extend their existing knowledge of sexual consent. Students learn a range of skills and understand when to use and apply them if dealing with challenging or unsafe situations.

1. Ask students to get into pairs or small groups of four.
2. Provide each group with a copy of the Teaching Resource: He said, she said party script and ask them to focus on Party Script A.
3. Give groups an opportunity to read through Party Script A and briefly discuss.
4. Show the following questions on a white/interactive board. Ask each group to respond to the question prompts as a whole class or discuss in small groups:
 1. Did Emma give consent to have sex with Jacob? Where in the script does it support your answer?
 2. What were some of the factors that influenced how both Emma and Jacob behaved?E.g. they were in an established relationship, alcohol, partying/celebration, location, trust, respect, body language, readiness, communication.
 3. How could Jacob have responded differently?E.g. Checked to see if Emma was giving clear consent and was ok to have sex before going ahead.
 4. At what point of the story could Jacob have done something differently?E.g. At Scene 7, Jacob could have asked Emma's friends to go and lie down with her/check on her instead and talk to her later about why he didn't think it was a good idea OR provide a couple of other scenarios
 5. Did Jacob and Emma have consensual sex?Teaching point: Giving consent means that everyone involved can clearly and freely agree to the sexual activities that will occur. If everyone is not willing or not able to give consent (such as if someone is asleep or under the influence of drugs or alcohol) then the sexual activity would be an assault and as such would be against the law. The law requires a person to be 16 years or older to provide consent to engage in any sexual activities.
 6. Was it sexual assault?Teaching point: Sexual assault can be a violent, unexpected, traumatic and sometimes life threatening event or series of events, even if the person has 'passed out'. Sexual assault is ANY unwanted sexual act or behaviour which is threatening, violent, forced or coercive and to which a person has not given consent or was not able to give consent.
5. Ask students to focus on Party Script B. In their small groups discuss where in the script the characters acted differently.
6. Ask students to underline or highlight where in the script the characters demonstrated the following skills when they had to deal with an emotional, social and physically challenging situation (there may not be examples to find showing these skills):
 1. Refusal skills
 2. Communicating choices
 3. Acting assertively
 4. Expressing thoughts opinions & beliefs
 5. Initiating contingency plans

A new script, a new ending

1. Students apply their knowledge, skills and understanding of respect and consent to create a

new script. It does not have to be a party script.

2. If time is limited, students can edit the existing party script from Scenes 7 – 10 only. The following criteria must be met:

1. The script demonstrates respectful behaviour and consent between the two characters.
2. At least two of the following skills are included in the script (refusal, communicating choices, acting assertively, expressing thoughts opinions & beliefs and/or initiating contingency plans).
3. At least two of the following questions are included in the script.
 1. What do you want to do?
 2. Are you ready to do this?
 3. Is there anything that you're not comfortable doing?
 4. Do you want to stop?
 5. Are you happy to go further?

3. Join pairs or small groups together. Each pair/small group reads through their new script. The other group members should be actively listening to ensure the set criteria have been met.

Alternate activity: Students create their new script as a short play or electronic presentation.

3-2-1 Reflection

Reflection

Students watch a YouTube clip: Partying and consent (https://youtu.be/YoUPqH_i_Qs) [6:29min]. The clip shows young people at a party drinking and dancing. Two of the characters go into the bedroom but the young male involved decides to walk away and not try and have sex with a very intoxicated young female.

Ask students to reflect on the storyline presented with the following question in mind:

- How does this clip demonstrate respect and consent?

3-2-1 Reflection
