

RELATE: Respectful relationships program - Stage 2

Learning objective

A one term respectful relationship program consisting of 8 scaffolded sessions covering - creating a group agreement, assessing prior knowledge, difference between gender stereotypes and expectations, respectful relationship qualities, non-consensual image sharing, decision making frameworks, communication techniques, ethical bystanders and critical analysis of websites.

Each stage can be delivered in isolation but is best delivered sequentially.

Stage 2 is suggested for Year 8 or 9 but may be suitable for lower or higher year groups depending on student demographics.

Take Home Messages

-

Curriculum Links

RELATE has been designed to improve students' knowledge, attitudes, skills and behaviours to recognise and engage in respectful relationships. This includes increased:

- awareness of, and respect for, diversity
- understanding of the impact of gender expectations and social norms on relationships and sexual health
- understanding of, and skills for, ethical behaviour in the context of relationships
- skills to establish and maintain positive, equitable and respectful relationships
- capacity to identify and address disrespectful behaviour
- digital literacy skills
- critical analysis skills
- knowledge of, and ability to access, a range of support people and services.

It provides opportunities for young people to explore attitudes and peer, gender, social and cultural influences that impact on behaviour in relationships; identify perceived and actual peer norms and

rectify incorrect perceptions; examine their expectations and the value they place on different behaviours within relationships as well as develop skills and confidence to carry out desired behaviours (self-efficacy).

Gender analysis is core to the approach of the RELATE program. Gender inequality and gendered expectations in relationships are understood as key issues underpinning the occurrence of relationship violence and poor sexual health outcomes. Gender is explored by considering individuals within the context of relationships, communities and society. This is extended using a human rights framework, that considers not only gender but includes race, ethnicity, class, sexual orientation, disability, religion and culture.

RELATE Stage 2 covers all of the Personal, social and community health descriptors in the Year 8 and Year 9 Health and Physical Education Syllabus. See [RELATE 2 WA Curriculum Mapping \(63KB\)](#) for descriptors mapped to individual session plans.

Curriculum Links

Key understandings

Session 1: Part 1 - Establishing a group agreement.

Purpose: To provide students with an opportunity to explore and discuss factors that make for a safe and supportive learning environment for all.

It is important to follow the class agreement so that everyone feels safe to learn and share their ideas.

Session 1: Part 2 - KWL (Know, Want to know, Learnt)

Purpose: to revise concepts of RELATE: Stage 1, to remind students of appropriate language; recognise prior knowledge of students; to give students an opportunity to record what they would like to find out about gender, respectful relationships, communication and sexting.

I already have some knowledge about gender, respectful relationships, communicating and sexting but there is a lot more to learn and understand.

Session 2: Gender NOT sex

Purpose: To help students understand the difference between 'sex' and 'gender' and to recognise gender stereotypes.

'Sex' describes the biological features that a person is born with that are used to determine whether they are male or female. 'Gender' describes the roles and expectations that families, culture, society, religion and the media assign to what it is to be a 'man' or a 'woman'.

Gender stereotypes can be damaging if they limit people's behaviours, interests, skills or relationships.

Session 3: Respect - What's OK and What's not OK?

Purpose: To revise what a respectful relationship is; To identify examples of respectful and disrespectful relationships in the film Tagged.

Everyone has the right to respectful relationships both face-to-face (in person) and online at all times.

Session 4: 4 Questions

Purpose: To identify a framework for considering the safety and respect of people in a situation.

There are 4 questions I can ask myself when I need to consider choices, consequences and safety of my actions. Relationship? Safe? My decision? Feel OK?

Session 5: What's the status?

Purpose: To identify the impact of online behaviour on individuals and others in relationships; To apply the 4 Questions framework in situations regarding online messages.

How I respond to people online, messaging and face-to-face can influence both positively and negatively how they feel about themselves and their relationships with others. Online messages can be easily misunderstood.

Session 6: Who said what?

Purpose: To revise and apply knowledge of communication styles; to reflect on personal communication styles.

Being assertive is an important skill that I can practise so that I can communicate respectfully and effectively with others.

Session 7: Telling stories

Purpose: To review and apply the concepts of being an ethical bystander, respectful relationships, assertive communication, 4 questions framework.

By being an ethical bystander, I can help to positively influence the choices, decisions and actions of others.

Session 8: Helpful websites

Purpose: To determine the appropriateness and reliability of online health information; to critically analyse a health website.

Being critically aware of the information I read is important so that I can determine if it is accurate, reliable and useful.

Materials

- See RELATE Stage 2 pdf in the resource section for full program including lists of materials required for each session

Learning Activities

Assessment task - marking key

Assessment task - marking key excel spreadsheet

Sexting: To send or not to send

Learning objective

Students use the *Laugh and learn* video and a decision mapping process to explore situations where people might be asked to send a sext. Emotional, social, ethical and legal consequences of sending or not sending a sext are unpacked. WA image-based abuse laws and where to go for help are also covered.

Take Home Messages

Remind students of the take home messages:

Unwanted sexting is disrespectful, harassment and against the law.

Sharing, or threatening to share, another person's sext/nude without their consent is image-based abuse and is against the law..

There are actions that can be taken and support available if you receive an inappropriate text messages and/or pictures or if your pictures are shared without your consent.

Sending sexts/nudes can have emotional, social, ethical and legal consequences.

It is easy to lose control over who sees a sext/nude.

It is important to think about potential consequences when making decisions about sexting.

Curriculum Links

Year 8

- The impact bullying and harassment can have on relationships, including online relationships, and the health and wellbeing of themselves and others ([ACPPS074](#))

Year 9

- Impact of external influences on the ability of adolescents to make health and safe choices relating to: sexuality; and risk taking ([ACPPS092](#))
- Strategies are examined, such as communicating choices, seeking, giving and denying consent, and expressing opinions and needs that can support the development of respectful relationships, including sexual relationships, for example: investigating the Western Australian legal requirements in relation to seeking, giving, refusing and accepting the refusal of consent, and considering how these laws relate to relationships with friends, colleagues, strangers and intimate partners, in both online and offline interactions.

Curriculum Links

Year 10

- External influences on sexuality and sexual health behaviours, including the impact decisions and actions have on their own and others' health and wellbeing ([ACPPS092](#))
- Skills and strategies to promote respectful relationships, such as: appropriate emotional responses in a variety of situations; taking action if a relationship is not respectful; appropriate bystander behaviour in physical and online interactions ([ACCPS093](#))
- Effects of emotional responses on relationships, such as: extreme emotions impacting on situations or relationships; the consequences of not recognising emotions in others ([ACCPS094](#))

Materials

- [Laugh and learn video - sexting](#) (2 min 12 sec)
- [eSafety - image based abuse video](#) (2 min 30 sec)
- Access to [Youth Law Australia - Sexting](#) web page
- Sticky notes (or small pieces of scrap paper)
- Pens
- A large floor space or wall space to place sticky note flow chart

- Optional: PowerPoint slides - To send or not to send?
- Optional: Take home activity sheet - To send or not to send? (1 per student) - electronic or hard copy
- Optional: Posters printed from Department of Justice (link provided in Before you get started section)

Before You Get Started

- Be aware that some students undertaking this lesson may have sent or received a sext. Emphasise that you do not want to know who has or hasn't sent or received a sext.
- [Protective interrupting](#) - Teachers need to know and understand how to use this technique to prevent students from potentially disclosing sensitive information or abuse in front of other students.
- [Dealing with disclosures](#) - Teachers must be aware of the school and legal procedures if a student discloses personal issues, particularly disclosures of sexual abuse.
- [Exploring my own values](#) - Consider your own thoughts, feelings, attitudes and values on this topic and be aware of how they may influence the way you present this activity. Be aware of your own self-care and support networks. Read [The art of safe sexting](#), [How to practise safe sexting](#), [Everything you need to know about sexting](#). Ideally, these and other associated issues need to be covered and extended in more lessons.
- Liaise with the school health team (e.g. Community health nurse, school psychologist) to inform them of the content you will be covering in class. It may be helpful to have these additional adults in these lessons or on standby for any individual or small group work that may need to take place.
- Preview [Laugh and learn video - Sexting](#) (2min 12sec) and [eSafety - Image based abuse](#) (1min 50sec) to determine suitability for your students.
- Teachers should be familiar with the laws on [sexual consent, sexting](#) and [image-based abuse](#).
- Visit [eSafety - sexting](#) for background information on the what, why and how of sexting.
- Sexting definition: Most sexting is done with a mobile phone but it also occurs through social media and other online activities. Sexting can include a range of behaviours and content, from sending flirtatious text messages to more intimate material, like taking and sharing nude photos or videos capturing sexual acts. The term 'sexting' is not often used by young people or in popular culture. 'Nudes', 'naked selfie', 'pic for pic', 'dic pics' are some of the terms young people might use. Other terms include intimate images, sexually explicit images or messages.
- Students may bring up popular media (tv shows and movies) which deal with image based abuse, youth suicide, mental health and other issues faced by teens. Sometimes organisations like and eSafety Commissioner have created resources to support use of popular media in the classroom.
- Optional: Print Department of Justice posters.

Learning Activities

Group agreement

Teaching tip: A group agreement must be established before any Relationships and Sexuality Education (RSE) program begins to ensure a safe learning environment. Read: [Essential information: Establishing a group agreement](#) for tips on how to create one and what to include.

1. Revise the class [group agreement](#).
2. Remind students that throughout the lesson they can write any questions down and add them to

the question box at the end of the lesson (if they do not wish to ask them during the lesson).

See [Essential information - Setting up a question box](#).

3. ??Trigger warning

Say:

"This lesson covers topics that can sometimes be difficult for people. Please let me know if you feel you need to take a break from the room.

Before we start, let's check that everyone knows where to go for help if you want to check anything that this lesson raises for you."

4. Ask students:

? Who are some trusted adults you can talk to?

(Possible answers: parents, grandparents, teacher, older siblings, doctor, other family members, etc)

Teaching tip: It is important not to tell students who their trusted adults are or should be. You can offer a list of suggestions of who they might be. For some students, some of the people you suggest, may not be people that are safe for them to talk to. Students should not be made to share their list of trusted adults publicly unless they wish to do so.

? Who are some people at this school that you can talk to?

(Possible answers: class teacher, other teachers, school psychologist, community health nurse, youth workers, etc)

Say:

"During the lesson we will also be learning about some services and online support that is available."

Introduction: Definition

5. Ask students what they understand by the term 'sexting'?

6. Take answers from volunteers.

Teaching tip: Students need to feel safe and supported in lessons on sensitive topics such as this. They need to know that they will never be called upon to answer questions and that you will only ever ask for volunteers for contributions.

5. Say:

"Sexting refers to using a mobile phone or the internet to take, ask for, receive, send or share intimate text, photos or videos including where someone is naked, partly naked, posing sexually or doing a sexual act. These are sometimes known as 'nudes', 'sexy pics' or 'noodz' or some of the words that you have already said. They are also known in legal terms as sexually explicit images or messages, or intimate images."

Thumb quiz: Legal, not sure, illegal

6. Teaching strategy: [Thumbs up/down quiz](#). Ask students to indicate their answers:
- thumbs up = legal
 - thumbs down = illegal
 - thumbs sideways = not sure.
7. Read and display the following scenarios on the board (See [To send or not to send PP teacher resource - slides 7-18](#)).

Teaching tip: The language in the following scenarios deliberately limits the use of gender pronouns in order to avoid gender stereotyping who sends/shares images and to be inclusive of gender and sexual diversity. Students can make their own decisions about the gender of the individuals in the scenarios.

- An 18 year old girl sends a naked image of herself to an 18 year old guy she likes.

(Legal, but if he didn't want this, it might be sexual harassment depending on circumstances.)

- A 20 year old girl sends a naked image of themselves to their 21 year old partner

(Legal)

- A 16 year old consensually sends a nude to their 16 year old partner.

(Despite being of legal age to have sex, and legal under WA laws, this is illegal under federal laws which override state laws. If a person under 18 takes a naked picture of themselves, it can be considered creating child exploitation material. Sending it to a partner can be considered distributing child exploitation material. These laws are designed to protect children from exploitation however, young people consensually sharing images can still be prosecuted under these laws.)

- A 21 year old shares the image of their partner with several of their friends.

(Illegal if they did not ask for their partner's consent to share the images.)

- A teacher 'follows' students on Instagram and make personal remarks.

(Legal but breaches professional conduct. [Guidelines for the Use of Social Media - The Department of Education](#).)

- After breaking up with their 16 year old partner, a 17 year old threatens to send an intimate image of them to their mates.

(Illegal to threaten to send an intimate image (WA law) and illegal to send an intimate image of a person under 18 years of age (Commonwealth law).

Laugh and learn video - sexting

8. Watch [Laugh and learn - sexting](#) (2min 12sec).

Teaching tip: CaLD students and students with special needs could potentially be confused between pimple popping and sexting. It is important for teachers to decide the suitability of this content for their students and to address any misconceptions that may arise.

9. Ask:

? What are some of the key messages from the video?

(Non-consensual sexting is disrespectful, harassment and against the law; issues can follow you the rest of your life - whether you send, receive or share an intimate picture; it is easy to lose control over who can see an image once it is sent; there are things you can do if you receive an unwanted sext.)

To send or not to send?

10. As a whole class create a 'choose your own adventure' style flow chart using sticky notes. This can be created on the floor, on desks pushed together, on a wall or a window.

Teaching tip: This activity should not be conducted in small groups unless there are enough adults to facilitate each group. This is vital to ensure students adhere to the group agreement (e.g. no sharing personal stories). Ensure all adults facilitating groups are familiar with [protective interrupting techniques](#) and how to [deal with disclosures](#).

11. Provide each students with a small stack of sticky notes (or scrap paper).
12. Guide students through the following steps either using the [To send or not to send PP teacher resource \(Slide 20-33\)](#) or by reading the instructions aloud.
13. Say:

" Describe a scenario in which a person might be asked for a nude. This is to be a hypothetical situation so no names of people we know and no personal stories."

? What are the names of person A and B?

? What are their genders?

? How old are they?

? How do they know each other?

? What app/device are they using to chat?

Teaching tip: It is important to remember that students in the class are likely to have experienced similar situations either directly or indirectly and it is vital for everyone to maintain confidentiality and not to disclose personal stories of their own or others. Offer students the opportunity to talk to you (or another trusted adult) in private if they have any concerns they would like to raise. The [question box](#) is another way of offering students opportunities to raise issues privately. Students can indicate that they would like time with you, the school counsellor/nurse by placing a note in the question box and including their name on the note.

Discuss some of the potential stereotypes:

? Is it always the guy asking for nudes?

? Is it always the girl being pressured?

? Is it always a heterosexual relationship?

14. Write down the scenario and place it on the floor/wall where you will be displaying the 'choose your own adventure' flow chart.
15. Say:

"What might person B's response to this request be? Write it down on your sticky note and place it along side the scenario to show the different ways the conversation might develop."

Ask:

? Do they want to send the nude?

? Do they feel safe?

? Is there trust?

? Do they feel pressured?

? How do they negotiate the situation? (diversion, humour, respectful, disrespectful)

? Do they consensually send the nude?

? Do they send a pic without showing their face or identifying features?

16. Ask:

? What might person A reply?

(anger, humour, pressure, respects answer and doesn't ask again, cuts off conversation, dumps person B, asks for more, call person B names for either sending it or not sending it)

17. Have the students continue the potential responses along the 'choose your own adventure' path.

18. Ask:

? What might happen as a result if they send the nude or if they don't send the nude?

? What are the emotional consequences?

(May feel regret for sending it; may feel mortified if it gets shared with others; may feel OK about sending it; may feel happy/sexy/flirty/etc sending it; may feel scared; etc)

? What are the social consequences?

(Friends/colleagues might judge you; may end the relationship; may start a romantic/sexual relationship; may bring person A and B closer; may cause person A and B to fall out; excluded from friends; family fall out; etc)

? What are the ethical consequences?

(Is it ethical to ask for a nude or should you wait to be asked? Is it ethical to assume a partner would be OK receiving a nude image? If someone has shared nudes with lots of other people, is it OK to share the image? What if there is a large gap in the age of the people sexting? etc)

What the law says

19. Have students read the [Youth Law Australia - Sexting](https://yla.org.au/wa/topics/internet-phones-and-technology/sexting-laws/) webpage (https://yla.org.au/wa/topics/internet-phones-and-technology/sexting-laws/) . This could be as a

whole class, on individual devices or printed copies.

Teaching tip: Ensure that the Youth Law Australia website is set to 'Showing laws for WA' so that the information displayed is accurate for WA.

19. Say:

"It is against the law for ANY person to take, keep or share intimate images when it involves someone under 18. It is against the law to share or threaten to share an intimate image of a person of ANY age without their consent. No doubt there are many people - adults and young people alike - who are unaware of these laws. Why do you think not knowing this information could be very dangerous for some people?"

20. Ask:

? What are the legal consequences?

(If under 18, could be charged with creating/distributing child exploitation material; could be put on child sex offenders register; could impact future employment and housing options; could be fined or imprisoned; could be no legal consequences; may be completely legal; etc)

? Who could get prosecuted in each of the scenarios we looked at in Too send or not to send?

(Any that involve people under 18. Any that involve harassment)

? Who would get prosecuted in each of these scenarios?

(It is impossible to tell. Laws are designed to protect young people from exploitation but the laws are still written in such a way that young people can potentially be charged. The laws place the emphasis on non-consensual sharing of images, pressure, harassment and 'sextortion' - threatening to share images)

Where to go for help

21. View [eSafety what is image-based abuse video](#) (2 min 30 sec)

22. Ask:

? Where can a young person go for help in these situations? What can they do?

(Tell a trusted adult, block the person on social media, report it on the eSafety site, contact Headspace, Kidshelpline, a school counsellor)

23. Show students the [eSafety Commissioner website](#) and go through the steps of 'What to do?'

24. Ask:

? What strategies have you seen in this process that you might recommend to a friend who was in a similar situation?

Teaching tip: It is important to keep questions 'a step removed'. Asking students what they would recommend to a friend allows them to think of useful strategies for themselves without having to say, 'I would do this' which could make them feel vulnerable and/or potentially disclose personal information.

3-2-1 Reflection

25. Ask students to share with another person:

? What is the most important thing you have learnt from doing this work on sexting?

? Who will you share this information with?

3-2-1 Reflection

Take home activity

1. Ensure students have internet access at home to access the [Youth Law Australia - Sexting](#) website or provide each student with the handout [Western Australia's new intimate intimate laws: Frequently asked questions](#).
2. Give each student the [Take home activity sheet: Sexting - To send or not to send?](#)

Health Promoting Schools

Health promoting schools strategies

Background teacher note: [Health promoting schools framework](#).

Partnerships with wider community

- [Talk soon. Talk often: a guide for parents talking to their kids about sex](#) is a free resource that can be bulk ordered by schools and interactive website. Consider sending a copy home to parents prior to starting your RSE program or providing a link to your website/e-news for parents and carers. The booklet offers age and stage related information on sex and relationships so that the topics covered in class can be reinforced at home. ([How to order hardcopies](#).)
- Send copies of the free resources [Relationships, sex and other stuff](#) and/or [Send noods?](#) home or provide in the lesson. ([How to order free copies](#).)
- Run a parent and carer workshop prior to delivering RSE lessons so that parents and carers can see the resources used, ask questions and find out how to support the school program by continuing conversations at home.
- Keep parents informed of the WA intimate image laws by adding these links to your school newsletter/social media/website
 - [Western Australia's new intimate intimate laws: Frequently asked questions](#)
 - [eSafety Commissioner - Sending nudes and sexting \(parents\)](#)
